

**CENTURYLINK INTERSTATE PRIVATE LINE AND ADVANCED NETWORK SERVICES AGREEMENT
INTERSTATE LOCAL ACCESS NETWORK SWITCHING SERVICE EXHIBIT
MONTH-TO-MONTH SERVICE**

1. General; Definitions. CenturyLink QC will continue to provide the month-to-month interstate Local Access Network (“LAN”) Switching Service (“LSS” or “Service”) under the Agreement, this service exhibit (“Service Exhibit”), and the RSS. Capitalized terms not defined in this Service Exhibit are defined in the Agreement. Service is subject to Tech Pub 77396.

2. Service Description. LSS provides a specific amount of bandwidth and supports both point-to-point and multipoint connectivity at 10 Mbps, 45 Mbps, and 100 Mbps. LSS is a fully managed service that includes CenturyLink bridging equipment located on the customer site. LSS is provided over 45 Mbps and 155 Mbps fiber-optic facilities. LSS requires the deployment of CenturyLink ATM Service. Access options available include unprotected and protected LAN links, with or without diversity, and LSS interoffice transport mileage, if applicable, and/or unprotected remote LAN links and digital private line transport service, if applicable. End-to-end connectivity is accomplished by establishing virtual circuits between Customer sites within the CenturyLink network.

2.2 Private Line Transport. If there are any conflicts between the applicable private line transport tariff and the RSS governing LSS, the private line transport tariff will prevail for the mileage portion. Any additional charges (including Termination Charges) resulting from changes to your Service locations, will be billed to you in accordance with the then-current applicable private line transport tariff. If DS3 service is purchased for LSS, it will be purchased from the private line transport tariff.

2.3 Changes. Changes to Service are not permitted under this month-to-month Service Exhibit. Customer must sign an Agreement containing the appropriate Service Exhibit if Customer wishes to add or modify Service.

3. Service Term. This Service Exhibit will remain in effect as long as there is Service under it.

4. Charges. Customer will continue to pay to CenturyLink the month-to-month Rates in the RSS, which are subject to change.
