

PICC (Presubscribed Interexchange Carrier Charge)

IABs PICC Billing data

The IABs (Integrated Access Billing System) PICC bill is generated by data stored in RSS, based on defined customer categories for presubscribed lines as discussed earlier in this package. RSS is the source for the reports that accompany the IXC's PICC BAN (Billing Account Number)

- one PICC BAN is rendered for each Qwest region (Western, Central, Eastern), to allow PICC charges from multiple states on a single BAN.

Summary OC&C

The first piece of documentation is the Summary OC&C (Other Charges and Credits) statement that accompanies the IABs PICC bill. An example of the detail of information the IXC receives on the Summary OC&C is shown on the next page with explanations.

Additional Report

The Presubscribed Interexchange Carrier Charge List (2428) is also available to customers. It provides a copy of the carrier's Presubscribed Interexchange Carrier charges for a selected period of time. To learn more about this report, please go to:

1. www.qwest.com/wholesale/RSS/index.html
2. download *Regional Subscription User Guide*
3. click on the *Reports* icon
4. go to the *Presubscribed Interexchange Carrier List*

Summary Explanation

1. PICC BAN (Billing Account Number and Customer Code) per Qwest Region:
 - **PNB**-Washington, Oregon
 - **MBB**-Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico
 - **MLH**- Malheur, including portions of Idaho and Oregon
 - **NWB**-Nebraska, Iowa, North Dakota, South Dakota, Minnesota
2. Interstate jurisdiction, 2-character alpha state code and Qwest numeric state code
3. PICC bill date LATA (670) and different CIC (15483)
4. Extract or “snap shot” date (May 01, 1999)
5. PICC USOCs by customer category
6. Total quantity by CIC, by customer category times the PICC rate

NOTE:

- This is the Carrier Billing Center version of the data the IXC receives.
- **While actual rates may periodically change from those listed in the sample OC&C shown above, the example remains accurate.**

PICC (Presubscribed Interexchange Carrier Charge)

XPTR 7000 Report

The XPTR 7000, is also sent to the IXC as supporting documentation for PICC charges. The format of the report can be NDM (Network Data Mover), or by disk. A paper version is sent to the Carrier by way of overnight mail.

XPTR 7000

Note: While the following sample report cites residential lines for which Qwest no longer assesses a PICC fee, PICC categories that are rated will appear as demonstrated below.
